UNIVERSITY OF ALBERTA

International Journal of Sport Psychology

Vol. 41 - 2010

N. 1 (January-March 2010)

Original Contributions

Conceptualizing the systemic interplay of athlete development 1
Michael B. Johnson, William A. Edmonds, Sachin Jain and *Javier Cavazos jr*

Anticipation of penalty kicking direction can be improved by directing attention through perceptual learning. 24
Geert J.P. Savelsbergh, Peter J. Van Gastel and *Paulien M. Van Kampen*

Influence of early environmental constraints on achievement in talented young handball players 42
Jörg Schorer, Joseph Baker, Simone Lotz and *Dirk Büsch*

Participation in sports activities and suicide prevention 58
David Lester, Michele Battuello, Marco Innamorati, Ilaria Falcone, Enrica De Simoni, S. Diletta Del Bono, Roberto Tatarelli and *Maurizio Pompili*

Examination of practice activities related to the acquisition of elite performance in Canadian Middle distance running 73
Bradley W. Young and *John H. Salmela*

Revisting the relationship between pattern recall and anticipatory skill . . 91
Damian Farrow, Jason McCrae, John Gross and *Bruce Abernethy*

N. 2 (April-June 2010)

Original Contributions

Frequency of knowledge of results does not influence perceptual learning and retention in novices. 107
Jörg Schorer, Rouwen Cañal-Bruland, and *Steve Cobley*

Ironic effects in a simulated penalty shooting task: Is the negative wording in the instruction essential? 118
Olaf Binsch, Raôul R.D. Oudejans, Frank C. Bakker, Marco J.M. Hoozemans and *Geert J.P. Savelsbergh*

Dissociation between the facilitative effect of acute exercise on feeling states and on cognitive flexibility. 134
Yael Netz

Exploring proposed mechanisms of the relative age effect in Canadian minor hockey. 148
Joseph Baker, Stephen Cobley, William J. Montelpare, Nick Wattie, Brent E. Faught and *The Ontario Hockey Research Group*

Gaze in Golf putting: Effects of slope. 160
Wim van Lier, John van der Kamp and *Geert J.P. Savelsbergh*

Commitment in age class adult Triathletes: Examining gender differences in the Sport Commitment Model. 177
Peter R.E. Crocker and *Lina Augaitis*

Brief Report

Baseball manager, no need to worry about players' analysis: Comment on Nelson and Simmons. 195
Makoto Yamaguchi

N. 3 (July-September 2010)

Original Contributions

Understanding students' motivation in middle school physical education examining the mediating role of self-efficacy. 199
Zan Gao, Amelia M. Lee, Maria Kosma, and Melinda A. Solmon

Motivational climate, need satisfaction, regulation of motivation and subjective vitality. A study of young soccer players. 216
Yngvar Ommundsen, Pierre-Nicolas Lemyre, Frank Abrahamsen and *Glyn C. Roberts*

The influence of sport-specific experiences during the psychological refractory period in the Go/Nogo double stimulation task. 243
Hiroki Nakamoto and *Shiro Mori*

When is manual guidance effective for the acquisition of complex skills in Gymnastics?. 255
Thomas Heinen, Alexandra Pizzera and *Jorge Cottyn*

Examining the impact of physical appearance on impressions of coaching competence. 277
Richard C. Thelwell, Neil J.W. Weston, Jain A. Greenless, Jenny L. Page and *Andrew J. Manley*

Gaze behaviour and shooting strategies in football penalty kicks: implications of a "keeper-dependent" approach. 293
Greg Wood and *Mark R. Wilson*

Intermittent visual information affects motor strategies during locomotor pointing. 313
Adrian Popescu, Keith Runnalls and *Brian K.V. Maraj*

N. 4 (October-December 2010)

Original Contributions

Visual search behaviour in skilled field-hockey goalkeepers. 327
Rouwen Cañal-Bruland, John van der Kamp, Marco Arkesteijn, Rein G. Janssen, Jelle van Kesteren, and *Geert J.P. Savelsbergh*

Exploring the multiple dimensions of social support among elite female adolescent swimmers. 340
Kristina Hassell, Catherine M. Sabiston, and *Gordon A. Bloom*

Applied sport psychology consultant perceptions of the usefulness and impacts of performance profiling. 360
Neil J.V. Weston, Iain A. Greenlees, and *Richard C. Thelwell*

Coping with social physique anxiety among adolescent female athletes. . 369
Cory B. Niefer, Meghan H. McDonough, and *Kent C. Kowalski*

Demographic dissimilarity and affective reactions to physical activity classes: The moderating effects of diversity beliefs. 387
George B. Cunningham

Representative experimental design issues in observing golfer pre-performance routine behaviour. 403
Stewart T. Cotterill, Ross Sanders, and *Dave Collins*

A new method to learn to start in speed skating: A differential learning approach. 415
Geert J.P. Savelsbergh, Willemier J. Kamper, Jorine Rabius, Jos J. De Koning, and *Wolfgang Schöllhorn*

Supplement 1

2nd INTERNATIONAL CONGRESS OF COMPLEX SYSTEM IN SPORT AND 10th EUROPEAN WORKSHOP ON ECOLOGICAL PSYCHOLOGY

Introduction

Introduction 1
Araújo D., Balagué N., Bootsma R.J., Mateus J., and *Correia V.*

Guest Speakers

Optimal range of variation in hockey technique training 5
Beckmann H., Winkel C., and *Schöllhorn W.I.*

Mechanical and informational influences of the organisation of the giant circle on the high bar in gymnastics 10
Bootsma R.J., Sevrez V. Rao G. and *Berton E.*

How can one use quantum probability and dynamics to build models of human cognition and decision making? 11
Busemeyer J.R.

A nonlinear perspective to motor learning in multi-articular interceptive actions 12
Chow J.Y., Davids K. and *Button C.*

The athlete-environment relation as a complex system: Implications for sport pedagogy 13
Davids K.

In-door skill training in rowing practice with a VR based simulator . . . 14
Frisoli A., Ruffaldi E., Filippeschi A., Avizzano C.A., Vanni F., and *Bergamasco M.*

Task failure can be explained by a general underlying mechanism . . . 16
Hristovski R., Balagué N., and *Vallejo L.*

Analyzing learning approaches by means of complex movement pattern analysis 18
Janssen D., Gebkenjans F., Beckmann H., and *Schöllhorn W.I.*

Natural solutions to complex problems 22
Lee D.

Bifurcations and self-organized criticality in motor learning 24
Liu Y.-T., Mayer-Kress, G., and *Newell K.M.*

Intermodal perception of whether an object is within reach 27
Mantel B., Bardy B.G., and *Stoffregen T.A.*

Time scales and fluctuations in motor learning 28
Mayer-Kress G., Newell K.M., and *Liu Y.-T.*

Space-time patterns in individual and team sports 31
McGarry T.

Networks as a method to analyze the dynamics of collective behaviors: an exploratory approach with water polo 31
Mendes J., Passos P., and *Paz N.*

Intercepting moving objects: does predictive information matter? . . . 32
Montagne G., Morice A., François M., and *Jacobs D.*

Goalkeepers learn to convergence to more useful information for stopping a penalty 34
Savelsbergh G. and *van der Kamp J.*

Complex movement analysis for complex training approaches 35
Schöllhorn W.I.

Complex system control of activiy during fatiguing exercise 38
St Clair Gibson A.

Emergent information for multimodal perception and control 39
Stoffregen T.A., and *Bardy B.G.*

The ecological perspective, past and future 41
Turvey M.T.

Evaluation of cardiovascular complexity in cycling until failure 41
Vainoras A., Balagué N., Company G., Berskiene K., and *Poderys J.*

Infants' convergence to more useful information in the control of catching . 42
van der Kamp J., and *Savelsbergh G.*

Locomotion initiation times when running to intercept virtual fly balls . . 44
Zaal F.T.J.M., Bongers R.M., Fernandez L., and *Bootsma R.J.*

Submitted Abstracts

Dynamics of volition states during exercise until failure 46
Balagué N., Hristovski R., and *Company G.*

Is variability of response after and before stabilization of distinct nature? . 47
Benda R.N., Palhares L.R., Vieira M.M., Albuquerque M.R., Januário M. and *Ugrinowitsch H.*

Ironic effects in penalty shooting: Avoid the to-be-avoided! 48
Binsch O., Oudejans R.R.D., Bakker F.C., and *Savelsbergh G.J.P.*

The effect of rod length on the trajectories of reaching movements . . . 49
Bongers R.M., and *Michaels C.F.*

1 vs. 1: How do we anticipate the direction in which a player will run? . . 50
Brault S., Kulpa R., Bideau B., and *Craig C.*

Influence of task constraints in creative dance depending on the kind of instruction 51
Castañer M., Torrents C., Dinušová M., and *Anguera M.T.*

Catastrophe flags in children and adults phase transitions in locomotion . 52
Catela D., Branco M., and *Seabra A.P.*

Dynamical effects of relative position in Basketball set shot 53
Catela D., and *Nunes S.*

Action anticipation and motor resonance in elite basketball players . . . 54
Cesari P., Urgesi C., and *Aglioti S.M.*

The structured information for discriminating the table tennis serves . . 55
Chen H.H., Chuang K.-L., and *Yang L.-C.*

Perceiving children's reaching capability 56
Cordovil R., and *Barreiros J.*

Neural activation and tau-dot: how does the brain respond to impending collisions? 57
Craig C.M., Vidal F., Goulon C., Nazarian B., and *Coull J.T.*

Are visual strategies in cricket batsmen affected by ball speed? 58
Croft J.L., Button C., and *Dicks M.*

The effect of movement amplitude on bimanual coordination: Comparison of three stability measures 59
de Poel H.J., Roerdink M., Peper C. (Lieke) E., and *Beek P.J.*

Distinctive effects of speed and accuracy demands in the speed-accuracy trade-off 60
de Poel H.J., Helsen W.F., and *Swinnen S.P.*

Gaze and movement behaviours of association football goalkeepers under different task constraints of the penalty kick 61
Dicks M., Button C., and *Davids K.*

Interpersonal dynamics in team sports: the role of TACTO and its applications 62
Duarte R., Ferreira R., Folgado H., and *Fernandes O.*

Validation of the tool for applied and Contextual time-series observation 63
Fernandes O., Folgado H., Duarte R., and *Malta P.*

Identifying and analyzing the construction and effectiveness of offensive plays in basketball by using systematic observation 65
Fernández J., Camerino O., and *Anguera M.T.*

Kinematic organisation of reciprocal aiming movements under (local) informational and (global) timing constraints 66
Fernandez L., and *Bootsma R.J.*

Performance in the haptic parallelity task depend on the exploratory pattern
Fernandez M., Travieso D., and *Aivar P.* 67

Dynamics of coach's game practical knowledge in basketball . . . .
Ferreira A.P., Volossovitch A., Gomes F., and *Infante J.* 68

The influence of the goal positional contraint in the offensive decisional process in Roller-Skate Hockey 69
Ferreira D., Araújo D., and *Prudente J.*

Agent based modelling of interpersonal interactions in rugby union: an extension of a 1 v 1 model . . . . . .
Fonseca S., Passos P., Araújo D., and *Davids K.* 70

Detection of counter-attack and fast attack interaction patterns in handball .
Freitas O., Oliveira C., Leitão C., Anguera M.T. and *Campaniço J.* 71

Postural dynamics in handstand 72
Gautier G., and *Thouvarecq R.*

Collective decision making in young soccer players 73
Góis J., and *Araújo D.*

Optical flow influences stabilization and efficiency of fast speed walking . 74
Guerin P., and *Bardy B.G.*

Metastability and situated creativity in sport 75
Hristovski R., and *Davids K.*

The speed-accuracy trade-off: Distinct realizations under distinct timing mechanisms 76
Huys R., Fernandez L., Bootsma R.J. and *Jirsa V.K.*

Towards a dynamic field model of inhibition of return 77
Ibáñez J., Travieso D., Jacobs D., and *Fernandez M.*

Information, learning, and the Müller-Lyer "illusion" 78
Jacobs D.M., Ibanez J., and *Travieso D.*

Training regimens, manifolds, and vector fields 79
Jacobs D.M., and *Travieso D.*

Invariant functions in driving through a gate of variable size 80
Kadar E., and *Köszeghy A.*

Global strategies in the negotiation of a triple bend at high speed: An analysis of gaze patterns 82
Kadar E., Pasztor A., Megellai G., and *Costall A.*

Methods to measure functional changes in the trunk action in overarm throwing 83
Kearney P., Smyth P.J., and *Anderson R.*

Ecological transitions in elite athlete careers 84
Krebs R.J., Brandão R., Sartori R., Copetti F., and *Ramalho M.*

Oscillations in Football – order and disorder in spatial interactions between the two teams 85
Lames M., Ertmer J., and *Walter F.*

Performance and principal component analysis of movement coordination while learning to ride a unicycle 86
Lee I., Liu Y.-T., and *Mayer-Kress G.*

Characteristics of the transition from spontaneous to reaching movements in infancy 87
Lee M., and *Newell K.M.*

Analyses of tactical patterns in ball team sports: from 1 versus 1 to small sided games 88
Lemmink K.A.P.M., and *Frencken W.G.P.*

The entangled decisions of penalty takers and goal keepers in association football 89
Lopes J.E., Araújo D., Fernandes O., Davids K., Barreiros J., and *Peres R.*

Time management in the complex and dynamic context of sport training . 90
Macquet A.-C.

Influence of set number on home advantage in high-level volleyball . . . 91
Marcelino, R., Mesquita I., and *Sampaio J.*

Effect of the roller skating practice on postural control 92
Melo F., and *Gonçalves F.*

Game test situations: Assessment of game creativity in ecological valid situations 94
Memmert D.

Collective decision making inter and intra-team analysis – New chalenges to match analysis 95
Milho J., Passos P., Leandro H., Borges J., Araújo D., and *Davids K.*

Enhanced variability applied to reduce intrinsic variability under static task constraints. Application to tennis serve training 96
Moreno F.J. Vera-Garcia F., Cervello E., and *Moya M.*

Power law distribution in pattern dynamics of collective behaviors in Rugby Union: Phenomena in a region of self-organised criticality? 97
Passos P., Araújo D., Davids K., Milho J., and *Gouveia L.*

The influence of injury in the players' and team's self-efficacy dynamics in basketball 98
Pecorella F.G., and *Araújo D.*

Game creativity analysis by means of artificial neural networks . . . 100
Perl J., and *Memmert D.*

Body functioning assessment problems of elite athletes 101
Poderys J., Ezerskis M., Poderyte K., and *Vainoras A.*

Unraveling the informational basis of anchoring in rhythmic visuomotor tracking 102
Roerdink M., Bank P.J.M., Peper C.E., and *Beek P.J.*

Basketball game perturbations according to game context and conditions . 103
Sampaio J., Leite N., Ibáñez S, and *Lorenzo A.*

Anxiety, performance and catastrophe theory: Studies on the optimal arousal level for parachuting 104
Schiedek S.

Coordination dynamics of natural social interactions 105
Schmidt R., and *Morr S.*

Analysis of inter-limb coordination and its variability in swimming . . 106
Seifert L., Hugues L., and *Didier C.*

The effect of gender and training experience on body segments' contributions in overarm throwing 109
Sommervoll Y., and *Ettema G.*

Differences in performance and kinematics when catching under block verus random temporal constraints 110
Tijtgat P., De Clercq D., Bennett S., Savelsbergh G., and *Lenoir M.*

Influence of the partner on motor skills generation dancing contact improvisation 111
Torrents C., Castañer M., Dinušová M., and *Anguera M.T.*

Effects of perceptive perturbatin and level of stabilization in motor learning adaptability 112
Ugrinowitsch H., Fialho J., Fonseca F., Profeta V., Albuquerque M. and *Benda R.*

Hysteresis of changes in physiological indices during physical workload and recovery of football players during exercise stress test 113
Vainoras A., Kajeniene A., and *Zumbakyte-Sermuksniene R.*

Is grasping in prehension and in catching controlled the same way? . . 114
van de Kamp C., Bongers R.M. and *Zaal F.*

The development of infants' reaching in occlusion situations: A cross-sectional study 115
van Wermeskerken M., van der Kamp J., and *Savelsbergh G.*

Postural synchronization in interpersonal visually coupled situation . . 116
Varlet M., Marin L., Lagarde J., and *Bardy B.*

The influence of the pace of match on the dynamic of handball game . . 117
Volossovitch A., Dumangane M., and *Rosati N.*

Matching dynamic landscapes between handwriting patterns producttion and graphic shapes perception 118
Wamain Y., Kostrubiec V., Longcamp M., Tallet J., and *Zanone P.G.*

Motor deficits in autism 119
Whyatt C., Craig C., and *McPhillips M.*

Dynamical systems approach to describe athletic performance . . . 119
Witte K., and *Ganter N.*

Rest between practice sessions inspires insight: Learning a mirror tracing task with different practice schedules 120
Yen Y., and *Liu Y.-T.*

Tribute to Gottfried Josef Mayer

A Passionate Complexity Scientist – Gottfried Josef Mayer (1954-2009). . 123
Liu Y-T., and *Newell K.M.*
